

In issue #20, we told you about the "Breathtaking Bel Air" that had recently surfaced in New York. Since then, we are happy to report that it was purchased by none other than Fritz Schenck of Belton, Missouri. Fritz promises a full restoration back to its candy red cover car glory. Fritz was nice enough to bring the car to Salina for the public to view before restoration begins. Another old custom is saved!

Opposite page: Ed and Judy Banes from Littleton, Colorado brought their copper and cream '56 Ford. Mike Shea cruised in from Arkansas City, Kansas with his chopped '51 Ford. The '55/'56 Dodge Royal Lancers have such pretty and clean lines right from the factory that they only need minor cleaning up to make a great custom. John Tomaszewski's '55 looks cool in copper with custom taillights and white scallops. **This Page:** The "Caddy Boys" from Denver, Colorado made a strong showing with their mid-century Cadillacs. Ed Blassingame's smooth '36 Ford Coupe.
